

# Smart Payment using QR code® Increases Customer satisfaction and Sales

Payment using a QR code enables Quick transactions, Reduced waiting lines, Enhanced customer satisfaction and Increased sales.

- The RX100 enables other transaction services.
- Supports two operational methods; scanning a QR code presented to the unit and displaying a QR code to have it scanned by customers mobile devices.
- OCR (Optical Character Recognition) feature available as an option.

A single unit works for QR code based payments and mobile coupon processing.

Works with NFC credit cards and NFC payment apps/cards.

Omni channel communication: The embedded LCD allows a displayed QR code being scanned by a mobile app on users' phone.
